

Rfresh Evolve- Vacuum Skin Packs

Fresh Thinking from
LINPAC Packaging
For the Retailer

Offer your customers a fresh, new look!

-  Rfresh Evolve trays from LINPAC offer a world of new, exciting display opportunities. The compact, tight aspect of our trays allow you to easily shingle packs, hanging tabs create vertical options and the complementary SRP solutions we provide give you a one touch replenishment solution reducing your shelf loading costs
-  Vacuum skin packs from LINPAC offer better product availability to meet the needs of the smaller convenience store - increased shelf life performance
 - no oxygen degradation to 21 days on red meat
 - product can remain in date across two weekends extending your opportunities to sell
-  Reduce your costs - the tight aspect reduces the incidence of leaking packs - less shelf cleaning required and as well as happy consumers
-  Reduce food waste – increased shelf life performance across the supply chain due to the vacuum process
-  Tamper evidence built-in - barrier films whiten on peel revealing whether a pack has been opened
-  Visual appeal - no greening with skinless/boneless or skin-on products

A comprehensive range of SRP solutions designed to complete the LINPAC VSP tray range

For further information on Vacuum Skin Pack Trays, or any other LINPAC Packaging solutions, please email info@linpacpackaging.com or visit www.linpacpackaging.com

Rfresh Evolve- Vacuum Skin Packs

Fresh Thinking from
LINPAC Packaging
For the Retailer

Offer your customers flexibility and choice!

LINPAC have a multi-material range of VSP trays to give you maximum flexibility. Choose from :

- rPET Mono, rPET/PE, PP/EVOH (PP barrier) or EPS foam
- below the flange, protruding, super protruding or tri-web (vacuum with MAP)

Flexibility of supply - no lock-in to a material or machinery manufacturer - LINPAC VSP trays will run on all suitably modified tray sealing machines and are compatible with all vacuum film suppliers

More efficient production scheduling - high barrier, high clarity pack with no gases that degrade the packed product - no oxygen degradation to 21 days on red meat

Reduce costs - the tight aspect pack creates less leakers and returns

Offer your customer products with immediate shelf impact - the compact, robust VSP tray from LINPAC can be displayed vertically, shingled or hung.

Offer your customers a complete solution including SRP manufactured from 90% post consumer recycle

- reduce their shelf loading costs - one touch replenishment saves both time and money
- minimise waste in their chiller cabinet - LINPAC SRP solutions do not absorb moisture
